## CIRCULATION BOOKS OPEN TO ALL.

A NOTABLE SUCCESS.

The sale of THE EVENING WORLD yesterday reached the splendid total of 149,680 copies.

THE EVENING WORLD alone had instantaneous news of the execution of DRISCOLL. It was first on the street. It had the fullest and most graphic account of the event of the day, and the best sketch of the doomed man's life and his last crime.

No superior was THE EVENING WORLD'S preparation and so swift its enterprise that the most boastful of its contemporaries, finding the contest hopeless, issued no extra.

Oh, yes! We are "moving on."

## GOING FOR THE WRECKERS.

The bill and resolution introduced in the House in relation to Pacific Railway affairs show that the investigation secured through the efforts of THE WORLD is likely to bear fruit.

Mr. ANDERSON'S bill directs that suit be brought against HUNTINGTON, STANFORD, GOULD, SLOAN and the other wreckers of the Government's securities, with a view to recovering part of the plunder.

Mr. THOMAS'S resolution directs that all further land grants be withheld from both the companies until a final accounting can be had with them and the Government secured against ultimate loss.

Better late than never.

## STILL SLUGGING.

The body of the forever "knocked out" DUMREY had not been buried when another brutal contest—this time a genuine one—was fought on Staten Island.

In the ninth round LARKINS knocked out DELACREY.

What are laws, and grand juries, and policemen for, any way?

## THE OLD ROMAN'S WAY.

Although retired from active life, Judge THURMAN could not refuse an appeal to help prosecute the perpetrators of frauds in the elections. The "Old Roman" appeared yesterday as one of the counsel for citizens in the trial of the tally-sheet forgers at Columbus.

The fact that the accused are Democrats, and that their crime was committed in the interest of Democratic candidates, only served to arouse this honest old Democrat's wrath and to stimulate his zeal. He values the honor of his party more than his success.

When are the specific charges of illegal voting in this city at the late election to be investigated?

## A MEATLESS BONE.

The fossilized Board of Regents, which Gov. HILL was very properly tried to get abolished, would afford a very suitable niche for disposing of that relic of Old Whiggery, ANAXIAS DANA.

But of course the Democrats wouldn't nominate him for it if they had the ghost of a chance of electing anybody.

A meatless bone is a very proper reward for the hungry dog that bit HANCOCK and yelped and frothed at CLEVELAND.

## DE LEON, the infamous trafficker in innocence, unmasked and convicted through THE WORLD'S efforts, will sympathize with DANIEL DOUGHERTY'S plea for a muzzled press, now that his sentence has been confirmed.

Bloody shirt BILLY CHANDLER "wants to know" several things about the navy. The country would like to know what became of the \$200,000 spent during twenty years by the Republicans in destroying the navy.

Again the skipping cashier, the President who didn't preside and the directors who failed to direct. Next!

A Minnesota physician recommends a heroic measure: learn the robes to keep one

warm during a sleigh ride. What's the matter with a nice, jolly, red-headed "best girl?"

Ozar CORBIN'S ukase satisfies the corporation organs perfectly. "A fellow-feeling makes us wondrous kind."

## WHAT THE WHEAT BROKERS SAY.

Charlie Gale, the Cyclone, seems very proud of his new title, "Whiskers."

Frank Williams's varicolored neckties have been quite a prominent feature in the pit of late.

It is rumored that the President is going to appoint Bennett missionary to India to convert the natives to his side.

Charlie Wilcox does not "help" as much as in former times, and the boys say he has become a nice, clean broker.

Jimmie Marshall, the "wee bonnie Scotch laird," is spending his winter vacation on board a snowed-in train in Iowa.

Jack Wiswell, as ever, is a firm friend of the farmer, and is waiting patiently to make a three-bass hit on the "beas."

Archie Montgomery intends to lecture next season throughout the country of the "Evils of Life Insurance," according to the latest gossip on "Chances."

Whenever The Wolf pounds the market nowadays and says "Make it a hundred," the boys say "Stop that or we'll tell your boss." He immediately withdraws.

With Jim Bingham hammering in the middle of the "pit," and George and Herbert Clearman on the sides the bulls have a veritable bear clique to buck against.

Since receiving his Christmas box Wallace trades more frequently at the market. No doubt he has concluded

"The best to trade at any cost."

For those who are in luck.

Louis Mills, in a recent exploring expedition, discovered a beer tunnel in the bowels of the earth, where the beverage gushes like a geyser, tender meat is served and waiters expect no tips. He boasts of it like a miner who has struck a rich vein.

A still hunt in New York's Botany Bay is the title of Police Capt. J. H. McCullagh's story to appear exclusively in to-morrow's EVENING WORLD. Don't miss it.

## WORLDLINGS.

Mrs. Deborah Powers, of Lansingburg, N. Y., is ninety-seven years old, and is at the head of the banking-house of D. Powers &amp; Jones, in that town.

Ella Wheeler Wilcox is visiting friends in Madison, Wis., her old home. She recently sold her Gogebic mining stock at a high figure and realized a handsome profit on her investment.

The richest man in Bangor, Me., and perhaps in the State, is Edward H. Blake, who is reputed to be worth \$5,000,000. He is not yet forty years of age and is a graduate of Bowdoin College.

The colored debating club at Central, Ill., recently discussed the proposition: "If my hen flies over into your yard and lays an egg, and my hen hatches a chicken from it, which hen is the mother of the chicken?"

The wife of Senator Vance, of North Carolina, is a handsome, dark-eyed woman, to whom the credit of much of her husband's political success is due. She is said to be the ablest feminine politician south of Mason and Dixon's line.

A young man living in St. Albans, Vt., awoke the other morning to find his mouth wide open and his jaw set in such a position that he could not close it. It required the assistance of a physician to get the refractory jaw into place again.

Editor Lathrop, of the Lumpkin (Ga.) Independent, is noted throughout Georgia for his entomological enthusiasm and his large collection of bugs and beetles. He has at least twenty thousand specimens, some of them very beautiful and rare.

Three thieves attempted to break jail at Paoli, Ind., recently and had nearly succeeded in overpowering Sheriff Pierce, when his wife appeared on the scene and opened fire with a six-shooter, causing the trio to beat a hasty retreat to their cells.

Statistics of the life insurance show that there are now 990,000 policies in this country, representing an aggregate insurance of \$8,100,000,000. During the past year more than \$400,000,000 of new insurance was written, and more than \$70,000,000 distributed among policy-holders in death, endowment and dividend payments.

Although Brazil is noted for its birds of brilliant plumage, it is said that the Emperess does not countenance the wearing of their feathers and will not allow them to be used on any part of her dress. She is reported to have told a lady at Cannes that, "much as she admires the feathers of the magnificent birds of Brazil, she only likes them on their bodies."

A well-known artist of this city tells a story which will be of interest to any one fond of psychological investigations. He was sitting in his sleeping chamber late at night reading a French novel, when his wife, who had retired some hours before, suddenly awoke and related a dream which she had just had. The dream was an exact counterpart—even to details—of the plot of the novel, which the lady had never read.

## COAL IS GOING UP.

A Rise in That Commodity of Frequent Occurrence in This Weather.
